Activity 3: Unique Favorite Fruits & Fruit Picker (With Remove Option) 🍏 🍌 🍊

📌 Problem Statement:

1. Ask the user to enter **three unique favorite fruits**.
2. Store them in a **list** and display the list.
3. Allow the user to **remove one fruit** from the list.
4. Convert the updated list into a **tuple** and display it.
5. Ask the user for a **number** to display a fruit from the tuple.

Note:

- *Give me your best output*
- *Add what you think is needed*
