Warm-up Activity 2

Function Warm-Up Activity: Personalized Greetings

Instructions:

1. **Create a function** `greet_user(name, time_of_day)` that returns a greeting message.
2. **Ask the user** for their name and time of day (morning, afternoon, evening).
3. **If the time of day is invalid**, use "day" as the default.
4. **Display the greeting message** using the function.
5. **Keep asking for new names** until the user chooses to exit.
